DETAILED ACTION

Allowable Subject Matter

1. Claims 1-9, 11-13, 16-18, and 20 are allowed.
2. The following is an examiner's statement of reasons for allowance:

The elements of independent claims 1, 13, and 16 were not found through a search of the prior art, nor were they considered obvious by the examiner. In particular, the prior art of record does not teach or suggest:

As in claim 1, "wherein the memory array is divided into a plurality of memory banks over which the plurality of counter values are stored, each memory bank having a separate instance of the hardware incrementer."

As in claim 13, "wherein generating via hardware the value of the index comprises generating the index as one of: a concatenation of a number of bits binarily representing the number of the plurality of events and a number of bits binarily representing the number of the plurality of qualifiers; and, a number of bits binarily representing a number of possibly occurring event-and-qualifier combinations, such that each counter value corresponds to a different one of the possibly occurring event-and-qualifier combinations."

As in claim 16, "wherein the performance counter comprises a plurality of memory banks and a plurality of hardware incrementers corresponding to the memory, banks, each memory bank storing counter values for counting the occurrences of some of the events, each hardware incrementer incrementing the counter values of the

memory bank to which the hardware incrementer corresponds in response to the occurrences of the some of the events to which the counter values of the hardware incrementer correspond."

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Philip Guyton whose telephone number is (571) 272-3807. The examiner can normally be reached on M-F 8:00-4:30.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Beausoliel can be reached on (571) 272-3645. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
